

Best Friends Animal Society Lauds Winnick Family Foundation for Its Support of Navajo Nation Veterinary Care and Youth Education Programs

A humane education program worked with ninety teens who were interested in becoming veterinarians or veterinary-medicine technicians. The students were able to arrange a free spay-neuter day that saw twenty cats and dogs fixed and vaccinated, found permanent homes for 50 abandoned, free-roaming dogs and set up three runs into remote areas to rescue dogs in danger.

Los Angeles, CA (PRWeb) December 13, 2010 – The Best Friends Animal Society of Kanab, Utah has lauded the Winnick Family Foundation for its support of the Society’s veterinary services and youth education programs within the Navaho Nation.

Anne Mejia, co-founder of Best Friends Animal Society in Kanab, said: “We very much appreciate the support received for our work from the [Winnick Foundation](#). Through your generous help, you have once again touched the lives of the animals and people of the Navaho Nation.”

The Best Friends Animal Society is dedicated to the humane treatment and medical care of small pets and stray animals. In 2010, the Society’s program, supported in part by a Winnick Family Foundation grant, has provided treatment for more than 200 at-risk animals and given more than 4,000 pounds of animal food and nourishment to pet-owning Navaho families in need.

A humane education program sponsored by the Society in 2010 worked with ninety teens at Monument Valley High School interested in becoming veterinarians or veterinary-medicine technicians. Working with the program, the young students arranged a free spay-neuter day that saw twenty cats and dogs fixed and vaccinated, found permanent homes for 50 abandoned, free-roaming dogs and set up three runs into remote areas to rescue dogs in danger.

[Gary Winnick](#), founder and chairman of Pacific Capital Group, said: “The Best Friends Animal Society in Kanab is doing remarkable work and setting a standard for the humane treatment of small animals across the vast territory of the Navaho Nation. We are very proud to support Society’s work and delighted that it has been able to not only care for at-risk animals but to encourage young Navahos to enter veterinary medicine.”
